  - **Version Control:** Git, GitHub
  - **Responsive Design:** Media Queries, Flexbox, Grid Layout
  - **Problem-Solving:** Logical and creative approach to problem resolution
- 

### WORK HISTORY

Avanza Innovations  
Front-End Developer (Full Time)  
Sept 2022 – Present

- **National eKYC** - Played a key role as a Frontend Developer in designing and implementing the user interface for a pioneering national eKYC (Electronic Know Your Customer) blockchain-based project, utilizing the Hyperledger framework. Contributed to enhancing the identity verification process by creating intuitive and secure UI components, improving data security, and streamlining access to personal information for both citizens and organizations.
- **Orion Meta** - Leveraged extensive Frontend Development expertise to design and enhance the user interfaces for the Backoffice and agent dashboard applications within the Orion Meta enterprise metaverse ecosystem. These applications are critical for facilitating seamless scene creation and enabling intuitive interactions between customers and users. Played a key role in ensuring a user-friendly and visually appealing experience, contributing to the overall success of the platform.
- **The Convo Invest** - Developed a sleek, user-friendly investment platform with a responsive UI using advanced frontend technologies. Collaborated with the design team to create interactive features and ensure a secure, optimal user experience.

Sartim Solutions  
Front-End Developer (Full Time)  
Jan 2022 – Aug 2022

- **Zubaidas Store** - As the Frontend Developer for Zubaida's Store, I designed and implemented a dynamic e-commerce website using WordPress. My focus was on creating an intuitive and visually appealing interface that offered a seamless shopping experience. I ensured the site was fully responsive and compatible across various devices, enhancing user accessibility and usability. Additionally, I integrated interactive features and optimized site performance to deliver a smooth and engaging experience for customers.

## EDUCATION

- Bachelors in Computer Science
- Aptech Certification - AccpPro (2020)
